Note – She could really use another wheelchair. A second-hand one would be perfect. Medicaid will not pay for one, since she only needs it for outings, and they can only provide one for use in the home primarily. The size she would need wouldn't fit in a mobile home hallway, so they won't provide it. A folding, heavy duty one is what she needs, and sometimes they can be found on for-sale groups on Facebook, Craigslist or at estate sales. Please don't worry about finding a new one, but if you are able to locate a second-hand one, she would appreciate it.
